WOODLAND.

The finest brands of **Wines, Liquors** and **Cigars** constantly on hand.

n21-6m F. HOLTZMANN, Prop'r.

The Science of Health!

Every Man his own Physician.

HOLLOWAY'S PILLS

—AND—

Holloway's Ointment.

Disorders of the Stomach, Liver and Bowels.

The stomach is the great center which influences the health or disease of the system—abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, etc. The bowels sympathize by costiveness, diarrhœa and Dysentery. The principal action of these Pills is on the stomach and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum

Are two of the most common and virulent disorders prevalent on this continent. To these the Ointment is especially antagonistic; its *modus operandi* is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions of the Skin,

Arising from a bad state of the blood, or chronic diseases, are eradicated and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints,

Whether in the young or old, married or single at the dawn of Womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation. They are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stuborn diseases is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases: Bunions, burns, chapped hands, chilblains, fistula, gout, lumbago, mercurial eruptions, piles, rheumatism, ringworm, salt-rheum, scalds, skin diseases, swelled glands, sore legs, sore breasts, sore heads, sore throats, sores of all kinds, sprains, stiff joints, tetter, ulcers, venereal sores and wounds of all kinds.

CAUTION.—See that the words "Holloway, New York and London," appear as a watermark on every leaf of the book of directions which enfolds each box or pot. No others are genuine. A handsome reward given for information leading to the detection of counterfeiters of the medicines and venders of the deceptive articles, knowing them to be such. Sold at the manufactory, No. 80 Maiden Lane, and by druggists and medicine dealers throughout the world. A great saving by taking the large sizes. Full instructions with every box or pot. f6-1y

FIRST PREMIUM

GOLD MEDALS

AWARDED TO

Wheeler & Wilson's

FAMILY

SEWING MACHINE!

Over 82 Competitors,

—AT THE—

Great Paris Exposition, 1867,

Being the highest honors and all the Gold Medals awarded to any Sewing Machine Company at this Exposition.

As a HOLIDAY

Present, Nothing will be more appreciated THAN ONE OF these MACHINES.

America, England and France, now unite in this grand Proclamation:

Good news! good news the cable brings,
O'er all the wires it flies,
Wheeler & Wilson's sewing machine
Brings back the golden prize.

Our "Uncle Sam" first struck the note,
"John Bull" then caught the sound;
Now comes from France the echo back,
Wheeler & Wilson's crowned.

And now, no more the people doubt,
So long its stood the test—
The thing is fairly noised about
And they will buy the best.

☞ We can now supply those who wish to purchase 'STODDARD'S PATENT TUCK-MARKER,' one of the most useful attachments to the Machine yet invented; which, while sewing one tuck, makes the line of marks for the next.

W. M. STODDARD, Agent,
Cor. Sacramento and Montgomery sts.,
San Fancisco.

MRS. H. HOLLO,
s26-1y Local Agent, Woodland.

Feed and Livery Stable.

Main street, opposite Baker's Hotel, Woodland.

Horses, Buggies, Carriages and Saddle Animals to let. Horses boarded by the day, week, or month. The patronage of the public is solicited.

D. C. HUBBARD,
THOS. GLASSCOCK,
oc24-tf Proprietors.

Notice to Shippers.

The new stern-wheel steamer, CHIN DU WAN, for Sacramento, Knight's Landing, Colusa and intermediate places, (in connection with the steamer ENTERPRISE), will commence her regular trips Tuesday, December 1st, from Flint's Wharf, foot of Front street. For freight etc., apply to the Captain on boat. d5-tf

The Christian's Death.

Hush! 'tis a holy place,
The spirit's passing hour;
A mortal one hath run his race,
A Christian claims his dower.
Be still, nor let an earthly thought
Mar the deep calmness of his lot.

Hath he not done with earth,
Its glory and its pride?
Its passing scenes of woe and mirth,
Its pleasures scorned though tried?
Hath he not conquered death and sin,
And joy'd eternal life to win?

And toil and strife are o'er,
And earthly cares are past,
And he hath gained yon blessed shore,
Hath won the palm at last.
O, who would cling to mortal woe,
When heaven such glory can bestow?

In yon bright land above,
How rich the deep repose!
No cloud by blasting sorrows wove,
No blighting shadow throws.
No care obstructs the radiant light
Where day ne'er shrinks from hastening night.

Then follow we his track,
Through Him who death o'ercame;
Since death restores not loved ones back,
Be ours such bliss to claim.
Be ours to gain the glorious prize,
Life, life eternal in the skies.

A CRACK IN A HOG TROUGH.—The following from a recent number of the Prairie Farmer is almost as good as Franklin's story of the whistle:

A few days ago a friend sent me word that every day he gave nearly twenty pails of buttermilk to a lot of "shoats," and they scarcely improved at all. Thinks I, this is a breed of hogs worth seeing. So I called on him, heard him repeat the mournful story, and then visited the sty, in order to get a better view of the miraculous swine. I went into the pen, and, on close examination, found a crack in the trough through which most of the contents ran away under the floor. Thinks I, here is the type of the failures of our agricultural brethren.

When I see a farmer omitting all improvements because of a little cost, selling all his farm stock to buy bank or railroad stock or mortgage stock, robbing his land, while, in reality, he is also robbing himself and his heir, thinks I, my friend, you have a crack in your hog trough.

When I see a farmer buying guano, but wasting ashes and hen manure, trying all sorts of experiments except intelligent hard work and economy, getting the choicest of seeds regardless of cost, then planting them regardless of cultivation, such a man, I will give a written guarantee, has got a crack in his hog trough, and in his head also.

When I see a farmer allowing loose boards all over his yards, fences down, hinges off the gate, manure in the barn yard, I come to the conclusion that he has got a large crack in his hog trough.

When I see a farmer spending his time travelling in a carriage, when he has to sell all his corn to pay the hired help, and his hogs are so lean that they have to lean against the fence to squeal, I rather lean to the conclusion that somebody that stays at home will have a lien on the farm, and that some day the bottom will come entirely out of his hog trough.

THE PROGRESS OF A LIE.—Anybody can tell a lie; but it requires a practiced hand to tell a "lie with circumstance." For something like four hundred years—much longer for aught I know—there has been a story floating about the world to the effect that in certain northern regions the words one speaks are frozen as soon as they are uttered, and have to be thawed before they can be heard. Castillian tells the story *as* a story; Heylin repeats it. Rabelais adds that the words, when frozen, fall about like hail, and are taken up carefully in the order in which they fall, and placed in a frying-pan to talk. Another writer says that some of them break in being picked up, and perish without utterance. It required the master hand of Sir John Mandeville to complete the thing. Heresay was far too tame for him. He saw the phenomenon, he says, and he gives you the name of the ship he was on board of at the time, and the exact latitude and longitude in which the occurrence took place. Growing even more minute, he tells you that certain of the words fell overboard and were no more heard of, and that the little frozen flakes, when much talk was going on, were a great annoyanance to the common seamen in their work. His crowning triumph, however, occurs when the thaw comes. A rude fellow, a boatswain, *he thinks*—having swallowed the camel he is very particular about the gnat, it will be observed—had, during the continuance of the frost, cursed the captain in a fit of passion; but as soon as the words began to thaw, his sin found him out, and he was soundly beaten for his disorderly behavior. Munchausen's version of the story is uninventive compared with this!

A RECIPE WORTH ONE THOUSAND DOLLARS.—The Ohio Cultivator says the following recipe is worth one thousand dollars to every housekeeper: "Take one pound of sal soda and half a pound of unslacked lime and put them in a gallon of water, boil twenty minutes, let it stand till cool, then drain off and put in a small jug or jar; soak your dirty clothes over night, or until they are wet through, then wring them, and rub on plenty of soap, and in one boiler of clothes well covered with water add one teacupful of the washing fluid; boil half an hour or more; rinse, and your clothes will look better than by the old way of washing twice before boiling. This is an invaluable recipe, and every poor, tired woman should try it."

TO REMOVE OLD PUTTY.—Old putty, it is said, however hard and indurated, may be easily removed by running a red hot iron over it, when it can be cut off with a knife almost as easily as green putty. To those who have plant-houses, etc., and even for the purpose of re-glazing house windows, this will be worth trying.

TRY IT.—A small quantity of sunflower seed mixed with the food of a horse, will impart a gloss to his coat, and is a sure cure for founder, if given immediately after that disease is discovered. When given as a remedy, about one pint of seed should be mixed with oats or other feed.

THE corrupt associations which prey on the government are called "rings," probably because there is no end to them.

I. O. O. F.—Proclamation.

OFFICE OF THE M. W. GRAND MASTER,
R. W. GRAND LODGE OF CAL.,
Sacramento, March 4, 1869.

To all Lodges subordinate to the Right Worthy Grand Lodge of the State of California, I. O. O. F.—Greeting:

On the 26th of next April our Order will be crowned with its first Semi-Centennial Anniversary. That day will complete the Fiftieth year since its introduction into our country. From its first inception it has been a harbinger of Peace and good will among men. By its record of good deeds, by its growth and enlargement as a system of unostentatious Benevolence and broad Philanthropy, it has earned the right to wear its Fifty years of history as Bays of Regal youthfulness, or the Laurels of noble achievement. It has practiced the holiness of helpfulness and beautified the thorny pathway of life by strewing the roses of relief and assistance. It has been a home to the wanderer and a ministering angel to the stranger as tender and true as the loved ones of his distant household. It has alleviated pain, by its ministrations at the bedside of affliction, and followed in undissembled mourning the funeral cortege. It has reviewed the great lessons of earth in the solemn funeral rites, and marked and beautified the Silent Cities where tender memories cluster. It has protected Widowhood and shielded the Orphan from Ignorance and Want. It has formed a strong bond of unity in society, and promoted harmony and social order among men. It has reconciled differences and maintained amicable relations between contending fragments and classes of society. It has promoted the cause of education and the diffusion of intelligence. It has inspired self-respect and engendered morality by a recongnition of equality before its Altar. It has strengthened the cause of popular liberty by the democratic form of its government, as well as by its power to combine without exclusiveness and its tendencies toward the unity of mankind. It has solved the problem and established the right of private consociation "independent of the State and not inimical to the State." It has vindicated the beneficence of our Republican Institutions, and put to shame the false statesmanship which would have limited the exercise of the Fraternizing impulses to the dreamy solitude of one social group—the State establishment. It has borne the prints of true religion by its constant activity in good works. Commemoratory of an event so signal as a social and national blessing, the Grand Lodge of the United States at its last annual session

"*Resolved*, That the Grand Lodges and Grand Encampments under the jurisdiction of the Grand Lodge of the United States and their Subordinates be, and they are hereby recommended to celebrate in an appropriate manner on the 26th of April next, the fiftieth anniversary of the establishment of Odd Fellowship in America.

"*Resolved*, That the several Grand Bodies and their Subordinates are hereby authorized to take such action as may be necessary to carry the above recommendation into practical effect."

At the last annual session of our own Grand Body the following was adopted:

"*Resolved*, That the several Subordinate Lodges in this jurisdiction be and they are hereby requested to observe the Fiftieth Anniversary of our Order, by setting apart that day for special thanksgiving and praise to Almighty God, and a day of rejoicing in our Order throughout our borders, by the members abstaining from their usual avocations, and assembling in their several localities, or where lodges are contiguous, by uniting at some central point, and celebrating the day by public procession, oration, and such other demonstrations and exercises as may be appropriate to the occasion.

"*Resolved*, That the M. W. Grand Master be, and is hereby requested to issue his proclamation in accordance with the foregoing resolution, granting all Lodges and assemblies of Odd Fellows in this jurisdiction to appear in full regalia upon that occasion."

Now, therefore, I, in Fraternal subordination, and in accordance with the joyous promptings the grateful event inspires, do hereby issue this, my Proclamation, and by virtue of authority in me vested by the R. W. G. L. of California, grant this, my dispensation, to all Lodges subordinate, to celebrate the twenty-sixth day of April, A. D. 1869, with such ceremonies as befit the Semi-Centennial Anniversary of the establishment of our beloved Order in America, and on that occasion to appear in public in the regalia and with the emblems of the Order, and they are hereby fraternally recommended to avail themselves of this dispensation, to observe the day as one of joyous thanksgiving to that God under whose Providence our Order has been the instrument of untold blessings to men; and with gratitude for its perpetuity and usefulness let us devoutly pray that its genius of Liberty, Fraternity and Peace may shine with undimmed lustre when it may claim centuries of retrospection.

{ S. L. } Given under my hand and seal of the R. W. Grand Lodge, the day and year above written.

C. S. HASWELL, Grand Master.

A NICE PLAN.—Fast young lady of eight summers says; "Georgia, when you are a great big girl and get married, what will you do, eh?" Georgia—"Oh, I expect I'll get a sewing circle and go to the water cure, and have lots of jewelry. What will you do, Sissy?" "Oh, me! I'll have a nice young man come to see me, and my husband, he'll get mad, and I'll cry and go to Chicago, and sue for a divorce, and the reporters will say that I'm a pale and spiritual looking young lady, and my husband is a brute; that'll be so nice."

FERTILIZER.—Wood ashes contain all the inorganic ingredients which growing trees extract from the soil, and, in consequence, are regarded as the best fertilizer for apples, pears, peaches, plums, etc.

SURE CURE FOR BOTS IN HORSES.—Take half a pint each of vinegar, soft soap and molasses, shake well together, and pour down the animal's throat while the mixture in foaming.

SALT-BRINE A PREVENTIVE AGAINST SMUT.—Among the many experiments made to guard against smut in wheat perhaps none has been more successful than that of saturating the seed in brine. Its use is very old, and the discovery of it wholly accidental. In 1670 a ship laden with wheat was wrecked near Bristol, England. After being soaked some time, the cargo was rescued and sold to farmers, and most of it sown. The following harvest the wheap crop in England was generally damaged by smut except that obtained from the wheat which had been soaked in the salt water. This marked difference was sufficient to justify the experiment again, and its success has kept it in practice ever since.

The following came under our own observation. Two farmers procured a fine sample of wheat for seed and divided it equally between them. The one soaked his wheat in brine, the other having no faith in it, neglected to do so. The former had not a smutty ear in his whole crop, while the yield of the latter was almost worthless on account of it. Other causes may have existed to produce this difference, but none that were apparent, and from the remarkable difference in the two results, we were lead to believe that it was effected by the means employed in the one case. It has been fully ascertained that this preventative will not avail when the seed is affected with smut, unless the season is very favorable, which alone will prevent smut.

When crops have been damaged by smut, an excellent expedient is to select seed from a different soil, having it well cleansed. Experience tells us that selecting seed wheat from different localities is beneficial in many respects. It is best to bring it from a strong clay soil, no matter on what kind of soil it is to be sown. A change from red clay to a white clay works well, so also from a white to a red clay. Changing seed from sandy soil has not been successful, and it is an old saying that this is no change at all.

AN UNANSWERABLE ARGUMENT.—A writer from Tennessee says: We have justices of the peace in Marion county the same as other States, and some of them are hard to beat in their decision of cases, as the following will show:

George P. N., a minor of twenty years of age, after having served three years in the United States Army as a private, came home to his father's house, and this year raised a crop. There happened to be a dispute between James, the father of George, and his son, whereupon George went out into the field where his father was at work and commenced pelting the old man with stones, so that he had to flee for his life. James, the father, went to one Harris, a justice of the peace, and got a warrant for George P., his son, charging him with assault and battery, with the intent to commit murder. In due time the sheriff had George before Squire Harris for trial. The usual question of guilty or not guilty being put to the prisoner, he plead "Guilty, but that, being a minor under twenty-one years of age, he was not accountable for his acts, but his father, being his natural guardian, was responsible for all his acts, civil and criminal." The court held this was an unanswerable argument; therefore James was taxed with the costs of the suit, and George P. was discharged. Can any of your squires beat that decision?

GRAFTING HUMAN HAIR.—We clip the following from a late New York paper, and especially recommend it to the "baldies" about here: One Innis, a colored barber in Jersey City, has made the treatment of premature bald heads a special duty, and after a series of experiments has demonstrated the fact that hair may be grafted into such a head and made to grow. He takes hair from the head of another person and examines it with a microscope to ascertain if it is perfect and healthy. This hair he inserts into the cavities of the scalp, and secures it to its place by bandages which are allowed to remain a few days until the hair takes root.

THE other day we printed an anecdote of Billy Hibbard, the Methodist. Here is another: Billy was apt to be pugnacious in the pulpit. It was well nigh impossible for him to say "Amen" until he had given the Five Points of Calvinism a rap. Once after he had been thus freeing his mind, a good Presbyterian friend who had been listening, said, "Brother Hibbard, you hurt my feelings by what you said about so and so"—some point of Calvinistic doctrine. "Oh," was the reply, "I am sorry you took that; I aimed that at the devil, and you stepped in and took the blow instead. Don't get between me and the devil, brother, and you won't get hurt.

BAYARD TAYLOR says: The most temperate people I have ever found are the Greeks, every one of whom—man, woman and child—drinks wine. Excess, in fact, is a physical disease, and should be treated as such. Where there is any tendency toward it, the only remedy is total abstinence. But the stronger and healthier nature has always seemed to me that which is able to control itself. Let our education, domestic as well as public, develop and strengthen this quality, and we shall accomplish more than by prohibitory laws.

THE following story, if not true, is certainly "well invented:" A confident Millerite, meeting Theodore Parker, said to him: "Friend, do you know that the world is coming to an end next week?".

Parker replied, "Oh, that dosen't concern me, I live in Boston."

Passing on, he saw Ralph Waldo Emerson, and asked him the same question.

Emerson's answer was, "Well, let it come to an end; we can get along full as well without it."

AFTER the death of Abderahman, Caliph of Cordova, the following paper was found in his own handwriting: "Fifty years have elapsed since I became caliph. I have possessed honors, riches, pleasures, friends; in short, everything that man can desire in this world. I have reckoned up the days in which I could say that I was really happy, and they amount to fourteen."

WHY is a lady whose dress touches the floor like a vagrant? Because she has no visible means of support.

YOLO COUNTY DEMOCRAT.

SATURDAY, : : : : : MARCH 13, 1869.

L. P. FISHER, 20 and 21 New Merchant's Exchange, is our authorized agent in San Francisco. For Eastern Advertising, Mr. Fisher is represented by S. M. Pettengill & Co., of New York and Boston.

HUDSON & MENET, 41 Park Row, New York, sole agents for the DEMOCRAT in the Eastern States.

THE RENEGADE.—Senator Stewart, of Nevada, who early in the war was a hot-mouthed secessionists, now occasionally tries among his Radical friends to out-Herod the simon-pure Herods something like this: "The Senate should bury unessential differences in order to give the negroes of Maryland the ballot. If they had the ballot they could demand their rights, and get office if they wished."

Senator Frelinghuysen, of New Jersey, predicted that there would not be a two-thirds vote in the next Congress for any such purpose, when he was interrupted by Davis, of Kentucky, with the explanation: "Oh, that's nothing; the Republicans can unseat a few Democrats and fix that all right." The latter gentleman went on to state, when his turn came to speak his piece, that the problem was really not whether the negro and Mongolian should vote, as the amendment provided, but whether the white man was fit for self-government.

The amendment was passed by 39 Republicans against 19 Democrats; so that if the present party can command a two-thirds vote in the next Congress, Mr. John Chinaman may commence taking out his naturalization papers and getting ready to rule this State.

VELOCIPEDE RACE FROM SAN JOSE TO SANTA CLARA.—The San Jose Patriot, of March 8th, says:

Two parties of velocipedists, on Sunday afternoon, made an excursion to Santa Clara upon this still novel and popular kind of conveyance. A party of ten or twelve started together at 2 o'clock P. M., and another party of five started from the corner of Market and Santa Clara streets at fifteen or twenty minutes later. Mr. Albert Schroeder led the first party, distancing the others, and reaching Santa Clara in about twenty minutes. Charles Wright, Esq., led the second party, and accomplished the trip over in about the same time. The appearance of so many persons riding on velocipedes, in the quiet and church-going town of Santa Clara, on Sunday afternoon, attracted a great crowd of old and young, who followed them during the excursion through the streets of the town, interferring greatly with Sabbath school meetings. The parties returned to San Jose about five o'clock in the afternoon, and rode through manny of the principal streets. On the starting of one of these parties from San Jose, Dr. Spencer's China servant, a capital velocipedist, started in and led the van as far as the Guadalupe bridge, but John was too prudent to trust his person or his swift machine to the jealousy of outside barbarians, and prudently withdrew from the contest.

TRESPASS LAW.—Several of our exchanges are advocating the passage of a general trespass law, similar to the one in force in this county. On this topic the Alta says:

One of the chief wants of California is the passage of a trespass law, which will hold the owners of domestic animals responsible for the damage done by their stock on the lands of others. This will save the necessity of fencing, and will make it possible to cultivate large areas which, on account of distance from fencing timber, must otherwise remain worthless. The fences of the State cost more than the cattle, and the fence law compels the farmer to spend two dollars to enable the grazier to pocket one. It is a foolish and most pernicious law. Many graziers are beginning to see that there would be more money in their land alone under a good law, than in land and cattle under the present system.

NEVADA LEGISLATURE.—The Legislature of this "rotten burrough" is proceeding with characteristic corruptness and effrontery in the brood farce of playing at State sovereignty. Among other acts, there is a project to create one or more counties in the White Pine region, and for fear some Democrats may be elected there, they propose to also select the officials for the new counties. The next thing we may expect from this delectable gang of Radicals, is that they have appointed themselves to hold the aforesaid offices!

IMAGINARY PICTURES.—Prang, the chromolithographer, is creating a sensation with his new picture of "Lincoln's Boyhood"—which may be said to be quite a stretch of the imagination, as there is perhaps not a human being on earth that can tell much about the boyhood of the late President. We expect next to hear that some other artist is going to give us the "Infancy of Plutarch," or something touching the boyish days of Methuselah.

THE CALUMET.—We have received a copy of a neatly printed and ably edited journal, with the above title. It is the organ of the Improved Order of Red Men on the Pacific coast. The mission of the organization is to "aid the afflicted, counsel the distressed, succor the feeble, watch with the sick and bury the dead." The Calumet is published semi-monthly, in San Francisco, by F. Clarke, at $2 per year. We wish it success.

SOLANO SENTINEL.—The Sentinel, a Democratic journal published at Suisun, has recently changed hands. Hon. F. L. B. Goodwin has assumed editorial control of the paper, and we predict for it a prosperous future. We have received no copy since the change has been effected.

UNCLAIMED.—A letter addressed to the "wickedest girl in Marysville" has remained uncalled for in Wells, Fargo & Co.'s office, in that city, for some time. How many claimants would there be if it were addressed to the prettiest girl in Marysville?

Chinese Schemer.

Burlingame did not eschew Massachusetts and become a Chinaman for nothing. Through his influence, together with the assistance of the Mexican Minister, Romero, certain capitalists and politicians have negotiated a contract with the Mexican Government for a large tract of country in Lower California, embraced within the parallels of 24 deg. 20 min. and 31 deg. north latitude, comprising 46,800 square miles. The parties intend to colonize this vast area with Chinaman, and for that purpose, Charles D. Poston has been sent to China, in company with Ross Browne, the Minister, who has promised his assistance in carrying out the colonization scheme. No white men are invited or provided for in the plans of the company. The lands are to be divided into small parcels and sold to the Chinamen for a trifling advance on the price originally paid by the company, and it is a stipulation that the Chinamen shall be considered Mexican citizens the moment they arrive, also to be exempt from military service and taxation for ten years, and to enjoy freedom in matters of religion, with the still better privilege of establishing their own local governments.

It is strange, but true, that the white people on this coast are singularly ignorant of the richness of the peninsula of Lower California, both as to its mineral wealth and the almost fabulous productions of its soil. The country is a singular mixture of the wildest imaginable mountains and the most fertile valleys on earth. Crossing our own Southern boundary line a few miles below San Diego, at the Gaudalupe Hidalgo Monument, a country is entered notable for its rude wild, picturesqueness and also for the abundance and variety of the productions of the rich valleys. Passing the princely ranches of such families as the Bandinis and the Arguellos, which are well worthy a more extended description than we have space for now, the vicinity of La Grulla and San Tomas will strike the observer as astonishingly favored by a bountiful Providence in all that makes a country valuable and its inhabitants healthy and happy. For example, at the ranch of Don Jose Sais, the first things that strike the stranger are the large adobe buildings, stored with wines in some and corn in others, to say nothing of the vineyards, orange groves and other cultivated grounds that produce with equal facility the grains of the temperate and the fruits of the torrid zones. Look at the robust people, the fine horses and the splendid cattle, and the fact is patent to the most careless observer that this is a favored land—a paradise on earth, fit for the best people on earth—a land that Americans would not willingly see delivered over into the hands of the moon-eyed pagans of an effete and corrupt race like the Chinese.

This *terra incognita* has long been possessed by the semi-barbarian mongrels of Lower California, who have for long years demonstrated the unfitness of the Mexican race for self-government. In 1853 and '54, Walker, the filibuster, who knew the wealth of the country, tried to make an entrance into it for the benefit of the people of the United States and in the interests of civilization. His tribulations and final defeat are among those histories of the past as little understood by the general public as were his motives. Some day, when the people can, for a brief time, take their eyes and ears away from the politicians, there will be greater rush of white men to the peninsula of Lower California than that now going on in the direction of White Pine. If, to-day, the people of California knew the wealth of Lower California, they would rush there in numbers capable of easily managing the semi-barbarians now there, so that these latter would be invaded and overcome by a superior civilization, instead of smothered out by an accession of Mongolianism.

FIFTEENTH AMENDMENT.—Before the Presidential election, when the charge was made by Democratic speakers and papers, that it was the intention of the Radical party to enforce negro suffrage on the people, willing or unwilling in the North as well as the South, the accusation was indignantly denied and pronounced a "Copperhead lie." Thousands of Republicans boldly asserted that if this proved to be the policy of the Radical leaders, they would treat such an attempt with scorn and no longer vote and act with men who would thus wantonly deceive the people by secretly favoring a pernicious doctrine so much at variance with the popular will. There is no mistake in regard to public sentiment on this question. The voice of the people, in overwhelming majorities, has repeatedly entered its protest. A corrupt and unscrupulous Congress is now attempting to force this doctrine on the very people who have so emphatically repudiated it. Below is a copy of the proposed Fifteenth Amendment. Let it be kept before the people for the consideration and benefit of conservative Republicans who have been deceived by the leaders of their party:

The right of any citizen of the United States to vote shall not be denied or abridged by the United States, or any State, on account of race, color or previous condition of servitude."

THE LADIES.—Our fair friends will now have ample opportunity to see themselves as others see them, in the columns of the 'El Dorado, the new paper just commenced, edited and printed by an association of ladies in San Francisco. No. 2 of Vol. I, has been received and placed on our exchange list. We can state that the new journal is womanly, decidedly, and not on the Lucy Stone-Abby Kelly order. We beg leave to tender the association our most cordial good wishes for the success of the enterprise.

NEWS IN BRIEF.

Twenty-two whales have been captured by the San Diego whalers.

Green peas are selling in San Francisco at fifty cents a pound.

A newspaper correspondent at White Pine advises poor people not to go there.

The ranch of Samuel Branan, on Feather river, has been sold for $15,000.

Prof. Luckey of the State Normal School is lecturing on the subject of intemperance.

A velocipede club has been formed at Placerville.

The snow is eight feet deep in the streets of La Porte, Plumas county.

A line of stages is to be put on the route between Sonora and Suscol.

A sailing velocipede has been invented by D. R. Smith, of San Francisco.

A Chinawoman, dressed in male attire, was arrested in San Francisco last Monday.

A new ten-wheel locomotive has been placed on the Central Pacific Railroad.

A box containing the dead body of an infant was recently found under a sidewalk in San Francisco.

Five hundred dollars reward has been offered by Gov. Haight for the arrest of the murderer of H. Fischer.

It is reported that the California Pacific Company have purchased the Napa Valley Railroad.

During the year ending March 1, 1869, $44,163 75 was collected in San Francisco for poll tax.

Burglars are infesting Stockton. Several safes have been blown open and robbed recently by the rascals.

A desperate fight occurred between a ship's officer and sailor in San Francisco on the 9th. The sailor was badly hurt.

Four gentlemen recently caught five hundred and thirty-seven trout in seven hours' fishing at Last Chance.

A little son of Mr. Foley was killed the other day at French Gulch, by the overturning of a kettle of hot water.

They have an artesian well in Oakland that discharges mineral water which is said to be beneficial to invalids.

A cargo of gypsum, worth $200,000 recently arrived in San Francisco from the Gulf of California.

A monument to the memory of Col. D. M. Boyd was erected on Monday last in the city cemetery of Sacramento.

Wm. H. Bell has been commissioned by Gov. Haight as Inspector of Stamps for the State of California.

Abner Campbell, a resident of Placer county, was fatally injured last week by being thrown from a load of straw.

A public meeting has been held at Eureka, Humboldt county, to take action in reference to the Westmoreland monument.

It is reported that a rich quartz mine has been discovered at Camptonville and great excitement prevails.

New locators in and about Los Angeles are securing land for the cultivation of the orange, lemon, lime and mulberry.

The small-pox is on the increase at Weaverville. Three new cases have been reported.

E. S. Gardner, a farmer of Yuba county, who for years has been subject to spells of insanity, has been sent to Stockton.

Twelve hundred barrels of flour and five hundred hides were shipped on Wednesday last by steamer Golden City, for New York.

The Stockton Homestead Association has purchased a tract of land near the city and divided it into town lots.

Thirty tons of mail matter, detained by snow on the Union Pacific Railroad, will arrive in a few days.

A dispute about the possession of land occurred between W. Voll and M. Welch, of San Francisco. Welch was shot and killed.

Hon. L. E. Pratt has been selected for Orator of the Day for the fiftieth anniversary of Odd Fellowship, at San Francisco, April 26th.

RESULT OF THE NEW HAMPSHIRE ELECTION.—In telegraphing the result of the New Hampshire election, an effort is made to deceive the people into the belief that there has been a Republican gain in that State. A majority of 2,500 is now claimed for the Republican candidate for Governor. In November, 1867, the majority for Grant was 7,647, and even conceding that the Republican candidate, on the 9th instant, was elected by a majority of 3,000, there is a Republican loss of 4,647, instead of a Republican gain, as claimed by the political bigots who make up the news for the Associated Press But the day of deliverance is now at hand; the monstrous monopoly of telegraphic dispatches, so long enjoyed by the Sacramento Union, and the San Francisco Alta and Bulletin, is soon to end, and then the press of the State generally will have, and can give publicity to the Eastern and foreign news as soon as the papers above named.—[Capital Reporter.

MASSACHUSETTS MORALS.—The following appears in the overland dispatches to the Reporter of Thursday:

BOSTON, March 10.—A real prize fight, between two women, according to the rules of the prize ring, except that hair-pulling and biting was allowed, occurred at Romeville, Mass., early Monday morning. The women were clothed in gaiters, stockings and drawers only. After twenty-one rounds, one begged her seconds, in God's name to take her away.

SHERMAN'S STAFF.—General Sherman, now General of all the land forces of the United States, has appointed his staff thus: Townsend, Adjutant General; Marcy, Inspector General; Meigs, Quartermaster General; Eaton, Commissary General; Barnes, Surgeon General; Brice, Paymaster General; Holt, Judge Advocate; Humphrey, Chief of Engineers; Dyer, Chief of Ordinance; and Myer, Chief Signal Officer.

SCHURZ SNUBBED.—A dispatch to the Herald says that Senator Carl Schurz protested against proposed Missouri appointments. President Grant said that he knew Missourians a great deal better than Schurz did. A majority of office-seekers there from Missouri are cursing Schurz as an unprincipled carpet-bagger and a soldier of fortune, and are excessively delighted over Grant's retort.

A MAN in Tennessee expects another deluge. He is building a six-story ark, with apartments for all the animals, snakes excepted.

STOCKTON GAZETTE.—This sterling Democratic journal, under the management of Dan Gelwicks, has recently been enlarged and otherwise improved. The Gazette is a success.

New Advertisements.

Sheriff's Sale.

BY virtue of an Execution issued out of the Sixth District Court, for Sacramento county, February 26th, 1869, and to me directed and delivered, for a Judgment rendered in said Court on the 25th day of February, A. D. 1869, in favor of S. H. DEPUY and against I. W. HITCHCOCK, to satisfy the sum of $111 20 costs, with all accruing costs, I have levied on the following property, to wit: A possessory claim on the public lands, situated in Yolo county, California, containing 160 acres, bounded on the north by the claim of Dutton, east by claim of Riddle, west by claim of Taylor, and south by claim of Minis—being the south-east quarter of section 33, township 9 north, range 1 east of Mount Diablo Meridian—together with the improvements thereon.

Notice is hereby given, that on

Saturday, the 10th day of April, A. D. 1869,

I will sell all the right, title and interest of said I. W. Hitchcock in and to the above described property, at the Court House door, in Woodland, Yolo county, California, at 3 o'clock P.M., at public auction, for cash in hand, to the highest and best bidder, to satisfy said Execution and all costs.

WM. MINIS, Sheriff

J H McKune 5, located Jan 8 1856, 320 acres, int pd $32, int due $351 30.

Levi Hermance 6, located Jan 6 1856, 160 acres, int pd $16, int due $175 65.

I have received, certified, from the Register of the State land office, the above List of Delinquent Purchasers of State Lands, who are hereby notified that if the said amount due shall not be paid within fifty days from the date of first publication of this notice, I will commence suit to foreclose the interest of said purchasers in the said lands.

J. C. BALL,
District Attorney of Yolo Co.

Woodland, March 6, 1869. 4w.

Notice to Contractors.

SEALED PROPOSALS will be received by the Board of Supervisors of Yolo county on and after the 3d day of March, until the first Monday in April next, at 2 o'clock P. M., for grading a portion of the Woodland and Davisville road, commencing at a point where said road intersects the Buckeye road, and running north 180 rods along the east side of John Mull's farm. Said grade is to be raised 1½ feet in the center and sloping to surface at eight feet from center line of road, making grade 16 feet at the base—with a culvert in the lowest portion of the ground; said culvert to be 4 feet wide and one foot deep, constructed of 3-inch Oregon pine and covered with earth 8 inches deep and so placed that the top of said covering shall correspond with top of grade. Also proposals to make a similar grade from said point where grade commences running east to where the high land is reached. Bids to be accompanied by a bond equal to contract price.

GEO. H. SWINGLE,
President.

mar6-4w

Summons.

STATE OF CALIFORNIA, county of Yolo, Grafton Township. In Justice's Court, before D. C. Hoffman, Justice of the Peace. Hoyt & Blucher, plaintiffs; vs. Warren Wygale, defendant.

The People of the State of California send greeting to Warren Wygale: You are hereby summoned to appear before me at my office in said township and county, within fifteen days after the service of this summons, to answer unto the complaint of Hoyt & Blucher, who sue to recover the sum of ninety-seven dollars and fifty-nine cents, upon an express contract for the direct payment of the above amount, when judgment will be taken against you for the said amount, together with costs and damages, if you fail to appear and answer.

Given under my hand on this 26th day of December, A. D. 1868.

DAN. C. HOFFMAN,
Justice of the Peace.

Hodgdon vs. City of Sacramento; Jabez Hatch vs. Cacheville Agricultural Ditch Co.; J. C. Trumpler vs. M. Bemerly; W. C. Wright vs. Alex. St. Louis; Peirson & Strong vs. W. W. Hannum; Owen Garity vs. E. Patten et al; E. H. Cone vs. John Hynes; Wm. Tweed and wife vs. Adam See et al; Charles Allen vs. A. R. E. Allen; Caroline Heins vs. Long Heins; I. W. Jacobs vs. J. J. Black; I. W. Jacobs vs. M. A. Rahm and M. D. Rahm; S. S. Guile vs. C. Field; Wm. Gordon vs. A. W. Dunnigan; M. A. Rahm vs. Wm. Minis and I. W. Jacobs, Rebecca T. Tiffe vs. S. W. Hopkins; Margaret Taylor vs. E. C. Taylor; Richard Barnes vs. J. I. Heath; People vs. J. B. Felton et al; Samuel Haines vs. S. G. Clark; Hunter, Wand & Co. vs. J. I. Heath; Clarissa Eveland vs. Henry Eveland; Martha A. Thomas vs. N. F. Thomas; W. D. Wristen vs. Henry Dawson et al; Stephen Hill vs. Adam See et al; Henry Toughton vs. Wm. Wignell; I. W. Jacobs vs. J. A. Black and D. C. Hoffman; G. W. Oeste vs. W. F. Slocum; G. Schmeiser vs. R. Thomas; J. B. Nathrop vs. W. H. McNeal; John Wohlfrom vs. M. Choynski; Fiske & Messinger vs. D. B. Goode et al; Wm. Yule vs. Wm. Flanders et al; John Wohlfrom vs. Barbara Wohlfrom; Henry Mess vs. Wm. Dresbach; E. C. Taylor vs. J. I. Underhill; T. B. Huribut vs. Beebe et al; H. Mess vs. J. L. Lillard; Thomas McClory vs. Andrew McClory; G. W. Derman vs. S. S. Guile; A. McClory vs. T. McClory; D. N. Hershey vs. Samuel Bailey; F. G. Burke vs. E. E. Knauer.

A CELESTIAL TOPER.—On Wednesday last a Chinaman, with queue quirled in the crown of a fashionable beaver, and himself dressed in a complete suit *a la* Melican, stepped into a fashionable saloon on Main street and with an air of confidence appropriate to one in favor of the ratification of the Fifteenth Amendment, called for a glass of "blandy," at the same time tossing a half-dollar on the counter. The good-natured bar-keeper set out the bottle and John—assuming an air of self-importance—filled his glass brim full of the coveted "fire-water," every drop of which he drank without stopping to breathe. At the conclusion of this ceremony the moon-eyed Celestial, with a countenance wreathed in bewitching smiles, exclaimed: "Belly good! belly good blandy! Chinaman heep likee! Me takee some more!" Suiting the action to the words, he astonished the bystanders by repeating the performance, while the bar-tender placed the half-dollar in the drawer and removed the bottle and glass from the counter. "Give me two bittee changee!" said the Chinaman. "No change," replied the knight of the glass; "you git." The disappointed John, enraged at this turn of affairs, left in high dudgeon and proceeded in a zigzag course down the street, cursing and muttering vengeance in true American style.

FINE STOCK.—There is no doubt that a very creditable display of fine stock will be made in this county when the proposed Agricultural Society is properly organized. Among the number of fine blooded horses belonging to Yolo, there is, perhaps, not one more worthy of mention than the celebrated "John Nelson," owned by Prentiss & Day. This horse, a beautiful chestnut, nearly sixteen hands high, has few equals in the State. His progeny have become famous for style, form, speed and endurance.

PERPETUAL MOTION.—A blacksmith, who is a good-natured scion of the Emerald Isle, residing at Cottonwood in this county, claims to have invented a machine which will truthfully demonstrate the long sought for discovery of perpetual motion. He *knows* the machine will work to perfection when completed and properly adjusted; "for," says he, in answer to the queries of doubting visitors, "the component parts refuse to be aisy and continue to wriggle while loose they are lying around."

CAPAY CITY.—This title has been given to a new town just springing into existence in the midst of a wealthy and prosperous neighborhood in Capay Valley. It boasts of a good store, a blacksmith shop, a saloon and quite a number of handsome residences—among the latter are those of Wash. Lambert, Ed. Clark and J. Woods, situated on the main street. There is a good prospect for a flourishing town in this locality at no distant day. Lots are selling at reasonable rates.

WALNUT TREES.—In various parts of the county quite a number of walnut trees have been planted this season. Until recently there were but few trees of this species in the county. The oldest and largest, perhaps, is one planted several years ago by J. A. Price, at Cottonwood. The tree referred to is a thrifty nut-bearing and beautiful shade tree, the trunk of which is about twelve or fourteen inches in diameter.

BUILDING.—There seems to be no cessation in the work of building and improving in town. As fast as lumber and other material can be procured, it is converted by busy and skillful hands into useful and handsome improvements, and what was only a few years ago considered an insignificant village, is daily assuming an air of importance never dreamed of by early settlers.

VELOCIPEDES.—Woodland has not escaped the velocipede fever. A couple of our citizens, while on a visit recently to San Francisco, became infatuated with the new method of locomotion, and, as we learn, have ordered the construction of several velocipedes with the view of introducing them in our midst. They are expected to arrive by Express in a few days.

NEW OFFICE.—C. S. Frost, Notary Public and Real Estate Agent, has removed to his new office in the Bank block. The location is a most desirable one, and the office is neatly and conveniently arranged for the transaction of business. The old frame formerly occupied by Mr. Frost will be torn down and removed.

BUSINESS.—For several weeks past a general complaint has been heard of dull times. This state of affairs is not likely to exist much longer. The roads are getting in good order, the weather has moderated and everything seems favorable to the early opening of a lively Spring trade.

MUMPS.—A great many children and some adults have been, and are now, experiencing the peculiarities of the mumps in this county. Generally the disease is regarded as a matter of little consequence. No serious results have followed its attacts except in very few cases.

RELIGIOUS REVIVAL.—Rev. J. W. Ross has been preaching, during the week, both in the afternoon and at night, to crowded houses. Much interest is being manifested at these meetings, which, we understand, are to continue another week.

NEW BENCHES.—A meeting will be held at the Christian Church on Wednesday evening next, for the purpose of devising means to provide the building with new benches.

FIREMAN'S FUND.—James K. Smith, of this place, has been appointed local agent for this sterling Insurance Company—office in Templar Block. See "ad."

YOLO LITERARY SOCIETY meets on Wednesday evening next.

DISTRICT COURT meets on Monday, the 15th instant.

SPECIAL NOTICES.

[From the new "Dominion."]

At this season, when coughs and colds are so prevalent, an effectual remedy, and one easily obtained, is Perry Davis Vegetable "Pain Killer." It is no new nostrum, vended by unknown agents, but has stood the test of over twenty years, and those who use the article, internally or externally, will connect with it grateful recollections of its worthy inventor.—[Hastings' Chronicle, C. W.

PAIN KILLER.—The testimonials borne to the efficacy of this valuable medicine are sufficient to warrant its introduction in every house. Our own opinion is that no family should be without a bottle of it for a single hour. In flesh wounds, aches, pains, sores, etc., it is the most effectual remedy we know of. A bottle will last for a very long time, and its low price places it within the reach of all.—[St. John News.

We are glad to learn that the "Pain Killer" is having so large a sale in our city. We have every reason to believe it to be an almost never failing cure for pain, and a medicine that no family should be without.—[Montreal Pilot.

MATCH IT.—Ay, Messieurs of the Faculty, furnish if you can from your repertory of medicaments, a compound or simple substance that will produce the same beneficent results that the Plantation Bitters are producing in all parts of the United States, tropical America, and the West Indies, every day. What will this preparation do? Briefly, it will replace debility with strength, regulate the disordered liver, tone the relaxed nerves, arrest the progress of emaciation, restore the appetite, relieve headache, cure fever and ague, prevent the evil effects of unwholesome water, chase away mental gloom, and mitigate or remove most of the physical troubles peculiar to the gentler sex. Will any of the official preparations do all this, or *half* this? If so, how is it that the masses reject them all, and put their trust unhesitatingly in this widely advertised specific?

ELECTRO SILICON.—This curious and valuable substance is confidently claimed to be the BEST ARTICLE ever discovered for cleaning and polishing Gold, Silver and Plated Ware, and all smooth metallic surfaces, of whatever description, including kitchen utensils of tin, copper, brass, steel, etc.

TO HEADS OF FAMILIES.—Are your little ones subject to croup? If so, don't fail to use NEWELL'S PULMONARY SURUP. A few doses given in time MAY SAVE THE LIFE OF A DARLING CHILD. Do not fail to have it on hand, if you would be safe and free from anxiety.

"IN TIME OF PEACE PREPARE FOR WAR."—So get a bottle of DR. E. COOPER'S UNIVERSAL MAGNETIC BALM, an unequalled preparation for Dysentery, Diarrhœa and Cramp. The instantaneous relief for Burns, Bruises and Sprains.

BORN.

Near Buckeye, Yolo county, Feb. 9th, wife of John Norton, a son.

ja9-tf and Real Estate Agent.

For Sale.

A most desirable residence in one of the best locations in Woodland. Newly-fitted two-story frame dwelling-house, fine garden and vineyard, containing 1,100 foreign vines of superior varieties, good shade trees and all modern conveniences. Enquire of the owner, Wm. Price, 44 K street, Sacramento, or C. S. FROST,
d19-tf Real Estate Agent, Woodland.

STOP THAT COUGHING.

Some of you can't, and we pity you. You have tried every remedy but the ONE destined, by its intrinsic merit, to supersede all similar preparations. It is not surprising you should be reluctant to try something else after the many experiments you have made of trashy compounds foisted on the public as a certain cure; but

Newell's Pulmonary Syrup

is really the VERY BEST remedy ever compounded for the cure of coughs, colds, sore throat, Asthma, Whooping-cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefitted by the surprising curative powers of

Newell's Pulmonary Syrup,

and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

Newell's Pulmonary Syrup

has cured thousands, and it will cure YOU if you try it.

This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all poisonous or deleterious drugs, and perfectly harmless under all circumstances.

Certificates from many prominent citizens of San Francisco accompany every bottle of

Newell's Pulmonary Syrup.

FLORIDA WATER!
USE NO OTHER.
Unexcelled for Toilet Use and for the Bath.

Use Electro-Silicon,
Or Magic Brilliant.

DR. E. COOPER'S
UNIVERSAL
MAGNETIC BALM!

A general Family Medicine. It is a sovereign remedy for

DIPTHERIA,

And kindred diseases of the THROAT, and unequalled in curing Dysentery, Diarrhœa, Cholera, Colic, Cholera Morbus and

FEVER AND AGUE,

Neuralgia, Rheumatism, Colds, Toothache, Burns, Sprains, Bruises, etc., etc., are at once relieved by its timely use.

Truly a Vegetable Preparation!

☞ None genuine without signature of W. R. STRONG.
REDINGTON, HOSTETTER & CO.

Redington, Hostetter & Co.'s
ESSENCE OF
JAMAICA GINGER!

This valuable preparation, containing in a highly concentrated form all the properties of Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic, it will be found invaluable to all persons recovering from debility, whether produced by fever, or otherwise; for while it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by riding in a railroad car, or by sea-sickness, or other causes.

It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.
REDINGTON, HOSTETTER & CO.,
416 and 418 Front st., San Francisco.

Use Electro-Silicon,
Or Magic Brilliant.

Redington, Hostetter & Co.'s
Florida Water.
FOR THE HANDKERCHIEF.

This article, possessing the most delicate fragrance of Flowers, is unequalled as a perfume for the Handkerchief.

FOR THE BATH.

Used in bathing, it imparts energy and strength to the system, and gives that softness and delicacy to the skin so much desired by all.

It Removes Sunburn, Freckles and Pimples.

Diluted with water, it makes an excellent Dentifrice, imparting pearly whiteness to the teeth, sweetness to the breath, and renders the gums hard and of a beautiful color.

It should always be used after shaving, diluted with water, as it relieves all inflamation.
REDINGTON, HOSTETTER & CO.,
416 and 418 Front street, San Francisco.

ELECTRO-SILICON,
—OR—
MAGIC BRILLIANT!
Direct from Nature's Laboratory.

The best article ever discovered for cleansing and polishing gold, silver, and plated-ware, and all smooth metalic surfaces, of whatever description, including kitchen utensils of tin, copper, brass, steel, etc.

To Jewelers and workers in gold and silver-plate, the Electro-Silicon is of inestimable value; the time saved, and the vexation prevented by its use, will forever endear its name to all who have had evidence of its merits.

The Reasons for Insuring
—IN THE—
NEW ENGLAND MUTUAL
Life Insurance Company,
OF BOSTON.

By the Acts of Massachusetts, incorporated into the General Statutes of 1860 and 1864, a Policy of Life Insurance for the benefit of a Married Woman, or any person or persons specified, goes to them independently of the debts and liabilities of the party who effects the policy.

An Act to Regulate the Forfeiture of Policies of Life Insurance.

Be it Enacted, etc., as follows:

SECTION 1.—No Policy of Insurance on Life, hereafter issued by any Company chartered by the authority of this Commonwealth, shall be forfeited or become void by the non-payment of premium thereon, any further than regards the right of the party insured therein to have it continued in force beyond a certain period, to be determined as follows, to-wit: The net value of the policy, when the premium becomes due and is not paid, shall be ascertained, according to the "combined experience" or "actuaries'" rate of mortality, with interest at four per cent. per annum. After deducting from such net value any indebtedness to the company or notes held by the company against the insured, which notes if given for premium shall then be canceled, four-fifths of what remains shall be considered as a net single premium of temporary insurance, and the term for which it will insure shall be determined according to the age of the party at the time of the lapse of the premium, and the assumptions of mortality and interest aforesaid.

SECTION 2.—If the death of the party occur within the term of temporary insurance covered by the value of the policy, as determined in the previous section, and if no condition of the insurance, other than the payment of premium shall have been violated by the insured, the company shall be bound to pay the amount of the policy the same as if there had been no lapse of premium, anything in the policy to the contrary notwithstanding: provided, however, that notice of the claim and proof of the death shall be submitted to the company within ninety days after decease; and provided, also, that the company shall have the right to deduct from the amount insured in the policy the amount at six per cent. per annum of the premiums that had been forborne at the time of the death.

[Approved, April 10, 1861.]

The Oldest Purely Mutual
Life Insurance Company
IN THE UNITED STATES.
New England Mutual
LIFE INSURANCE COMPANY,
OF BOSTON.

Cash Assets	$6,000,000 00
Income for 1867	2,203,808 90
Losses paid 1867	381,600 00
Total Losses paid	2,796,100-00
Cash Distributions, 1867	526,573 55
Total Surplus Dividend	2,726,573 55

Dividends declared annually. First Dividend available at the Payment of the second annual premium. All policies remain in force so long as there may be any surrender value. Thus, a party insuring at the age of thirty-five, on Life Plan, Premiums all cash:

1st an'l premium continues policy	2 yrs & 3 days
2d	"	"	"	4 yrs & 12 dys
3d	"	"	"	6 yrs & 27 dys
4th	"	"	"	8 yrs & 46 dys

YOLO COUNTY DEMOCRAT.

Smothered in Roses.

Yes, charity, I know, may hide
  A multitude of sins;
But there's a proverb to decide
  Where charity begins.
Should *mine* in future contemplate
  A journey anywhere,
'Twill be a ball—a play—a fete—
  And not a fancy fair.

The girls are all so very bold—
  The men so very rash—
So many trifles *must* be sold,
  And all for ready cash,
You'll find, when once you come to count
  The dollars here and there,
It costs a pretty large amount
  To see a fancy fair.

Three quarters of the things they sell
  Are not a bit of good—
(One can't refuse, though, very well,
  And wouldn't if he could),
They have such voices and such curls,
  And such a winning air—
About a dozen pretty girls
  May work a fancy fair.

They hunt a fellow round and round,
  They track him up and down;
They sell him portraits at a pound,
  And roses at a crown;
Scent, purses, pocket-books, and rings—
  Pomatum for the hair—
And fifty other little things
  That stock a fancy fair.

I'm not particularly shy,
  As everybody knows,
And yet I am obliged to buy
  Whatever they propose.
I've been so often overcome
  That now I only dare
To take a very modest sum
  To any fancy fair.

They little know or little feel
  What injuries they do;
A wound upon the purse may heal,
  But hearts are wounded too.
This damage done by lips and eyes
  Is more than I can bear;
So, charity, take any guise
  Except a fancy fair.

An Ohio editor is getting particular about what he eats. Hear him: "The woman who made the butter which we bought last week is respectfully requested to exercise more judgment in proportioning the ingredients. The last batch had too much hair in it for butter, and not quite enough for a waterfall. There is no use in making yourself bald-headed, if butter is thirty-five cents a pound."

One of the best things to resist fatigue with is music. Girls who "could not walk a mile to save their lives," will dance in company with a knock-kneed claronet and superannuated fiddle, from tea time till sunrise; while a soldier, grown weary with quietness, will no sooner hear a bugle give a flourish than he will limber his legs; and then look out for your shins.

A young housekeeper in town was applied to for a situation by a servant girl, and, among other questions, asked her why she left her last mistress. "Why, you see, I was too good-looking, and when I opened the door, the gentlemen always took me for the missis." The lady concluded not to accept her services.

A Quaker, chasing his broad-brim, which the wind had taken, saw a boy laughing at his dilemma, and inquired, "Art thou a profane lad?" The youngster replied that he did a little that way. "Then," said he, handing him a quarter, "thee may damn that hat the money's worth."

An amateur violinist lately gave as much latitude in choice of tunes as the proverbial Hobson used to give in horses. He remarked, as he rose with his bow, "Wall, boys, I can't play but one tune, now, which will you hev?" Which they all thought they would.

California contains 33,775 more square miles than Great Britain, Ireland, and all the adjacent islands under the British flag. Were it as densely inhabited as the British home territories, we should have more than thirty-five millions of people in this State alone.

"Come, don't be timid," said a couple of foolish snobs to two mechanics; "sit down and make yourselves our equals." "We should have to blow our brains out to do that," was the reply.

A home without a girl is only half blest; it is an orchard without blossoms, and a spring without song. A house full of sons is like Lebanon with its cedars, but daughters by the fireside are like roses in Sharon.

Tom Hood even is almost inexcusable for such a description of music as this:

"Heaven reward the man who first hit upon the very original notion of sawing the inside of a cat with the tail of a horse."

As the snow melts upon the mountains from the rain that trinkles down their sides, even so is beauty washed from the cheeks by tears; and neither the one nor the other restores itself again forever.

Knowledge is the true alchemy that turns everything it touches into gold. It gives us dominion over nature, unlocks the storehouse of creation, and opens to us the treasures of the universe.

Will asked old "ten-per-cent." what he wanted to accumulate so much money for. Says he, "You can't take it with you when you die, and if you could, it would melt or burn up."

An Illinois editor, speaking of a rogue who lived in his vicinity, says: "The rascal has broke every bank, jail and Sabbath we have had in the country for the last five years."

The New York Tribune insures Horace Greeley's life $100,000 for its own benefit, and pays the premium, $7,000, in advertising. That is Yankeeism worthy of pillane pectoral Ayer.

A Berkshire girl walked fourteen miles through the snow the other day to marry a young man who couldn't come to her house for fear of a six-shooter which the stern parent carried.

"What does a man think when he thinks of nothing?" said a coquette to a gentleman with whom she had broken an engagement. "He thinks, miss, of a woman's promise."

We frequently hear of our Generals capturing "pieces of artillery." "What's the use of capturing 'pieces?'" says Mrs. Partington, "why not capture the whole one?"

Don't be too anxious to solve a conundrum. We know a man who got two black eyes in endeavoring to find out the difference between a man and a woman fighting in the street.

It was an apt answer of a young lady, who, being asked where was her native place, replied, "I have none; I am a daughter of a Methodist minister."

Dogs are said to "speak with their tails." Would it be proper, therefore, to call a short-tailed dog a stump orator.

The man who wrote "I am saddest when I sing," was a fool to sing much.

FALL AND WINTER
IMPORTATIONS!

C. H. GRAY. F. S. FREEMAN.

GRAY & FREEMAN,

MAIN STREET,.....WOODLAND,

Are constantly receiving a

Complete and Carefully Selected Stock

—OF—

GENERAL MERCHANDISE!

Hardware,

And everything usually found in a well-regulated store. ☞ Thankful for past liberal patronage, a continuance is desired. s26-tf

---

$1.000 Reward for its Equal!

THE NEW

WEED
SEWING MACHINE!

Just completed, in SOLID STEEL MACHINERY, and combining in ONE the good of ALL!

This most enterprising Company has certainly brought out

THE BEST SEWING MACHINE EVER MADE!

And indeed is the ONLY NEW Sewing Machine, of any name, manufactured for the last eight years. Even a *superficial* observer can easily see that it surpasses all others, at least in the simplicity and durability of its machinery, and its remarkable

EASE OF MOTION AND MANAGEMENT.

It has few pieces, and all of steel. It makes the complete **"Lock Stitch,"** the same on both sides, which will not ravel. Every Machine is warranted to sew from

Thinest Lace, to Double Harness Leather!

and of course can never be got out of order by "hard sewing." ☞ All repairs free of charge. Prices same as others.

PLEASE NOTICE.

The claims of the Florence Company for the First Premium at the great Paris Exposition of 1867, though seeming *true* in *letter*, is really false in spirit and intent, and calculated greatly to deceive the public. Although it *did* receive the Silver Medal—that being the highest award given—it was *not* awarded the first rank! This was awarded the **Weed** Sewing Machine, and to the *WEED only*, as being "first in the order of merit." The second place was given to an European Machine, and only the *third* to the Florence! But the claim of the Wheeler & Wilson Company, at this Fair, is a great outrage, both as to letter and spirit; at least so much of it as pertains to their Gold Medal upon their Family Machine, which, to speak plain, is purely imaginary, they having received—as is well known—their Gold Medal on their "Button-hole Machine," but nothing at all on their "Family Machine;" not even a bronze medal, nor indeed (what is worse) even an "honorable mention." (See official report.) See also, as to the new *WEED* Sewing Machine, the returns of the State Fairs of Pennsylvania, Illinois, New Hampshire and New York, for 1867, at each of which the *NEW WEED* "F. F." Sewing Machine was pronounced the *BEST*, and received the highest premium given. And so also at other Fairs, and indeed wherever the Company shall choose to exhibit the "strong points" of this really magnificent Machine.

S. E. HOAR, General Agent,

Office No. 8 Montgomery street, San Francisco.

H. U. OGBURN & LADY, Woodland, agents for Yolo county, where this Machine will be ever ready to "speak for itself," both to those who see and those who buy. jy4-1y

---

C. D. MORIN,

— DEALER IN —

STOVES!

METAL, HARDWARE,

—AND—

House Furnishing Goods,

Also manufacturer of

Tin, Copper, and
Sheet-Iron Ware,

Returns thanks for the liberal patronage heretofore bestowed upon him, and calls the attention of his customers to the fact that he has enlarged and improved his business to suit their wants, in every particular,

PATENT PUMPS

Kept constantly on hand.

LIFTING PUMPS,

of all descriptions, made and repaired, and particular attention given to

Well-Boring!

Boring Tools furnished to customers free of charge. **Tin Roofing** done in the most scientific manner. **Old Roofs Repaired,** and job work done on short notice. All kinds of stock furnished, and work performed at

REDUCED PRICES!

☞ Orders from the country promptly attended to.

☞ Shop on Main street, next door to Gray & Freeman's store. au1-m

---

If you want a genuine American Gold or Silver Watch, call on the new firm of
RUGGLES & MACHEFERT.

G. J. OVERSHINER,

CARRIAGE AND
WAGON
MANUFACTURER,

Main street, (opposite Gray & Freeman's,)

WOODLAND.

I would call the attention of the public to this well-known shop, where I manufacture to order and keep constantly on hand for sale

Carriages,
Buggies,
Sulkies,
CONCORD-STYLE THOROUGHBRACE

—AND—

LUMBER WAGONS,

—FROM THE—

BEST EASTERN MATERIAL,

Selected by myself!

All work manufactured at my shop is under my own immediate supervision, and up to the requirements of the times, of the latest style, and the most

APPROVED PATTERNS AND FINISH!

I employ no "foreman," for 30 years' experience in the trade—10 years in the Eastern States, 20 years on the Pacific coast, (including 9 years superintendence of the "Pioneer Carriage Shop," Sacramento,) justifies me in assuming that position. Delegating to none the supervision of my work, I am enabled to

Guarantee Satisfaction!

My LARGE and SPACIOUS SHOPS enable me to store large quantities of material, and my

SEASONING FACILITIES,

(the only perfect seasoning apparatus on the coast) enable me to defy competition in quality of seasoned work. For verification of above, one has only to examine my facilities in this line, and compare them with those in other shops. I do not pursue the course adopted by many; on the contrary, I season stock before working, and do not put up green stock in wheels, leaving them to season afterwards. I have and keep on hand a large stock of

OAK and HICKORY SPOKES,

of all sizes and the finest material the market affords. Also a large variety of

Elm and Locust Hubs.

Having given the Oak Hub a fair trial, I have become convinced that they are *unfit* for first-class work. Parties who may favor me with their patronage may be assured that

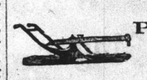
No green oak hubs will be found in my work!

In this connection I would call particular attention to my NEW STYLE LOCUST HUB, turned from my pattern, and imported expressly for this trade and

Found only at my Shop!

Also made to order all kinds of

FARMING IMPLEMENTS!



Plows,
Harrows, &c

I have now on hand Harrows of all sizes, with STEEL TEETH, superior to the imported article. In short, I am prepared to fill all orders, from a **Wheelbarrow to a Hornet's Nest.**

The PAINTING and TRIMMING DEPARTMENT

is equal to the best, and particular attention is paid to repairing and trimming old work.

BLACKSMITHING,

In all its branches, is connected with the wood-work, and both are under my supervision.

I have on hand, for sale,

Plow-beams and Handles,
Neckyokes,
Singletrees,
Stretchers,
Clevises,
Fifth-chains,
Lap-Rings,
Harrow-Teeth,
Etc., Etc.

All kinds of Plow and Wagon repairing done with neatness and dispatch. Determined to adhere to my long-established rule of manufacturing only the

Best Work from the Best Stock,

and having served my time at the two branches of carriage-work, (wood and iron) enables me to guarantee satisfaction in all cases, and to know, as foreman of my own shop, when work is

WELL DONE.

To those who have heretofore dealt at other shops, and consequently are unacquainted with my work, I would say GIVE ME A CALL and examine my stock and work. Believing that the surest test of the value of my work can be had in the verdict of those who use it, I respectfully refer the public to

The following named Gentlemen

who have and now are using Wagons and Buggies of my manufacture: E. Giddings, J. Laugenour, J. Aldrich, Mr. High, H. Rhoades, Mr. Taylor, J. Jones, L. B. Ruggles, Gray & Freeman, J. Garoutte, Fleishman & Kaufman, Ed. Moses, S. & M. Hyman, George Scott, Mr. Ludden, Mr. Olds, Mr. Lusk, Mr. Hurlbut, R. Fritz, J. Lane, Wm. Davidson, and a host of others whose names can be given if required

☞ Thankful for past patronage, I respectfully solicit a continuance of the favor.

G. J. OVERSHINER,
d19-1y Main street, Woodland.

HELMBOLD'S BUCHU.

The only Known Remedy

—FOR—

Diabetes, Irritation of the Neck of the Bladder, Inflamation of the Kidneys, Catarrh of the Bladder,
&c., &c., &c.

For these diseases, it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms. Are you troubled with that disgusting pain in the small of the back and through the hips? A teaspoonful a day of Helmbold's Buchu will relieve you.

Physicians and Others
PLEASE NOTICE.

I make no secret of ingredients. Helmbold's Extract Buchu is composed of Buchu, Cubebs and Juniper Berries, selected with care, prepared in vacuo and according to the rules of

Pharmacy and Chemistry.

These ingredients are known as the most valuable Diuretics afforded. A Diuretic is that which acts upon the Kidneys. Helmbold's Extract Buchu acts gently. It is pleasant in taste and odor, free from all injurious properties, and immediate in its action. For the satisfaction of all, see Medical Properties contained in Dispensatory of the United States, of which the following is a correct copy:

"Buchu. Its odor is strong, diffusive and somewhat aromatic, its taste bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, chronic catarrh of the Bladder, morbid irritation of the Bladder and Urethra, diseases of the Prostrate, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in Dyspepsia, chronic Rheumatism, cutaneous affections and Dropsy."

For further information see Professor Dewees valuable works on the Practice of Physic. See remarks made by the celebrated Dr. Physic, of Philadelphia. See any and all standard works on Medicine.

Dr. Keyser is a physician of over thirty years experience, and a graduate of the Jefferson Medical college and of the University of Medicine and Surgery of Philadelphia:

Mr. H. T. Helmbold—Dear Sir: In regard to the question asked me as to my opinion about Buchu, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have not used or known to be used, in the various diseases where such medicate agent would be indicated. You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys; and the reputation it has acquired, in my judgment, is warranted by the facts. I have seen and used, as before stated, every form of Buchu—the powdered leaves, the simple decoction, tincture fluid extracts; and I am not cognizant of any preparation of that plant at all equal to yours. Eighteen years' experience ought, I think, to give me the right to judge of its merits, and without prejudice or partiality I give yours precedence over all others. I value your Buchu for its effects on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other Buchu, or any other proprietory compound of whatever name. Respectfully yours, etc.,

GEO. H. KEYSER, M. D., 140 Wood st.
Pittsburg, Pa., August 11, 1865.

ASK FOR
HELMBOLD'S FLUID EXTRACT BUCHU.

FROM THE LARGEST MANUFACTURING CHEMIST IN THE WORLD.

I am acquainted with H. T. Helmbold; he occupies the drug store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise. Wm. Weightman, (firm of Powers & Weightman), Manufacturing chemists, Ninth and Brown streets, Phila.

The proprietor has been induced to make this statement from the fact that his remedies, although advertised, are genuine preparations, and knowing that the intelligent refrain from using anything pertaining to Quackery, or the Patent Medicine order—most of which are prepared by self-styled doctors, who are too ignorant to read a physicians' simplest prescription, much less competent to prepare Pharmaceutical preparations. These parties resort to various means of effecting sales, such as copying parts of advertisements of popular remedies and finishing with certificates. The science of medicine stands simple, pure and majestic, having fact for its basis, induction for its pillar, truth alone for its capital.

A Word of Caution.

Health is most important; and the afflicted should not use an advertised medicine, or any remedy, unless its contents or ingredients are known to others besides the manufacturer, or until they are satisfied of the qualifications of the party so offering.

HELMBOLD'S
GENUINE PREPARATIONS:
Fluid Extract Buchu,

Fluid Extract Sarsaparilla,

—AND—

IMPROVED ROSE WASH,

ESTABLISHED OVER 16 YEARS.

PRINCIPAL DEPOTS:

HELMBOLD'S DRUG & CHEMICAL WAREHOUSE,

594 BROADWAY, NEW YORK

—AND—

HELMBOLD'S MEDICAL DEPOT,

104 South Tenth Street, Philadelphia, Pa.

Price $1 25 per Bottle, or 6 Bottles for 6 50.

SOLD BY ALL DRUGGISTS.
